## SPECIAL PREMIUM OFFER

To increase our present mailing list, we are making a Special Premium Offer, in which you may participate for only a moment of your time.

With each order, accompanied with cash, amounting to \$2.50 or more, and the names and addresses of Six (6) persons whom you believe may desire to purchase nursery stock or will be interested in receiving our General Descriptive Catalogue, we will include, FREE with your order, your choice of any PEONY PLANT herein priced at 50 cents or less.

Be sure to write the names and complete addresses PLAINLY, stating your choice of premium.

## COMBINED QUANTITY RATES

The combined quantity rate on orders is governed by the highest total number of trees of a class; not on a total number ordered of different classes. Example:

10 Apple, 2 Cherry, 1 Peach, the Cherry and Peach, in one order, take the 10 rate the same as the Apple. 100 Pear, 2 Cherry, 1 Peach, in one order, the Cherry and Peach rate same as the Pear.

## PREPAID TRANSPORTATION

We pay transportation charges to any point in the Pacific Northwest (Evergreens and Evergreen Shrubs, balled and burlaped, excepted) where cash accompanies order, and to all other points in the U. S. A. one half the transportation charges, cash to accompany order.

## OUR GUARANTEE

All goods are guaranteed to reach you in good, healthy, growing condition; up to grade standard as represented; and to pass State Inspection. At the prices we sell our nursery stock, it is impossible for us to guarantee growth or to be responsible for stock after delivery to our customers in good condition.

Our 57 years of continuous growing and selling quality nursery stock to our many thousands of satisfied customers throughout the United States is an important assurance of your entire satisfaction.

## NON-WARRANTY

While we hold ourselves in readiness, on proper proof, to replace free of charge all trees, etc., that may prove untrue to label, or refund the amount paid, we give no warranty expressed or implied as to description, quality, productiveness or any other matter of any Nursery stock, seeds, bulbs or plants we sell.

## Number of Trees or Plants Required per Acre— How to Estimate.

Rule—Divide 43,560 (the number of square feet in an acre) by the number of square feet for each plant. The result is the number required for an acre.

If trees are planted on the Triangular system, 15 per cent more than for the Square system will be required.

## EVERGREENS

In order to handle **Evergreens and Broadleaf Evergreens** in the most satisfactory way, and to better insure their growth, these plants are dug with a ball of earth which is held in place by sewing around it a strip of burlap.

Our "Transplanting Instructions" leaflet, sent out with each order, will give detailed directions for planting Evergreens successfully.

All Evergreens and Evergreen Shrubs herein are priced F. O. B. Milton, Oregon and are not shipped pre-paid. We make no charge for "Balled and Burlaped" nor boxing for shipment.

One dozen at ten times each price.
